Delta Dental PPO Remains the Largest PPO Dentist Network in Oklahoma & Nationwide!

The Delta Dental PPO network is our nationwide preferred provider organization (PPO) dentist network. When enrollees select PPO network dentists, they are likely to receive the highest level of benefits with the lowest out-of-pocket cost.

A recent study from Delta Dental of Oklahoma reveals that 717 dentists (up 17% over 2006) are participating in the Delta Dental PPO network. That is 45% of all dentists in private practice in the state which translates to the largest PPO network in Oklahoma.

“Having the largest networks of dentists in the nation is tremendously important because it means we can deliver maximum access and freedom of choice with minimal disruption or inconvenience to our more than 50 million subscribers,” said Ken McGuire, vice president of sales and marketing for Delta Dental of Oklahoma.

“Our networks represent a critical part of fulfilling our commitment to promoting good oral health by creating access to affordable dental care.”

Nationally, the Delta Dental PPO network has more than 102,000 dentist locations – again – the largest PPO network among all competitors. The bottom line – your clients want access to care for their employees. Delta Dental delivers! What’s more, Delta Dental of Oklahoma enjoys a 96% satisfaction rating with those providers. So it is highly likely they are going to stay with Delta Dental for many years to come.

Delta Dental receives Readers’ Choice Award from Benefits Selling Magazine

Delta Dental was named the dental benefits carrier offering the best coverage, plan design and network availability by Benefits Selling magazine. The award was announced in the November 2007 issue of the magazine. Benefits Selling magazine surveys its readers annually, asking them to vote on company and product preferences in eight categories that are determined to be important benefits brokers and consultants. This year, dental carriers were included among the categories chosen for the survey.

“We’re really pleased that the broker community recognized us as the leaders in dental benefits,” said Ken McGuire, vice president of Sales and Marketing for Delta Dental of Oklahoma. “We take great pride in our customer service and providing our clients with a great value and easy administration.”

The results of the Benefits Selling Readers’ Choice Awards mirror another survey conducted in 2006 by independent research firm The Long Group and sponsored by Delta Dental Plans Association. That survey found that brokers recognized Delta Dental as the category leader, and that Delta Dental outperformed competing dental benefits carriers in all key areas identified as being most important to brokers.

Delta Dental of Oklahoma Charitable Foundation Hosts Golf Tournament

For DDOK, providing employer-based dental insurance is only part of its responsibility. In 1998, DDOK created the Delta Dental of Oklahoma Charitable Foundation, which is funded by a $500,000+ annual donation from Delta Dental of Oklahoma. Its mission is simple - to further dental education and provide dental treatment to those in need.

This mission is accomplished by funding numerous free and low-cost dental clinics, including Neighbor for Neighbor in Tulsa, City Rescue Mission in Oklahoma City and Help for Friends in Norman, to name only a few. The Foundation also supports the OU College of Dentistry and funds free children's dental education in schools across the state via its free Captain Supertooth program.

The Foundation recently hosted a golf tournament at the Oklahoma City Golf & Country Club, with all proceeds benefitting Foundation-sponsored outreach programs.

“The monies we raised will directly benefit those less fortunate – Oklahomans who really need dental care but just can’t afford it,” said Jim Hampton, Chairman of the Foundation. “We really appreciate the support and want to thank all our sponsors, vendors, and players for supporting this great cause.”

Major Sponsors included:
» Patterson Dental
» Bank of Oklahoma
» Madison Scottsdale
» Birchall & Hampton

Vendors and clients who donated their talents and services included:
» Earl’s Rib Palace
» Great Plains
» Sprint
» BC Clark
» Hudiburg Auto Group

Health Tips:

Research is suggesting that people with periodontal disease are at higher risk for developing heart disease, stroke, uncontrolled diabetes, preterm births and respiratory disease. Sometimes the only way to detect periodontal disease is through a periodontal evaluation.

A periodontal evaluation may be especially important if you:

- Notice any symptoms of periodontal disease.
- Have heart disease, diabetes, respiratory disease, or osteoporosis.
- Are thinking of becoming pregnant.
- Have a family member with periodontal disease. Research suggests that the bacteria that cause periodontal disease can pass through saliva. This means the common contact of saliva in families puts children and couples at risk for contracting the periodontal disease of another family member.
- Have a sore or irritation in your mouth that does not get better within two weeks.

Periodontal bacteria can enter the blood stream and travel to major organs and begin new infections. If you value your oral as well as your overall health, a periodontal evaluation is a really good idea.
